

# Leaving On A Jet Plane

John Denver

          C                                  F  
All my bags are packed I'm ready to go  
          C                                  F  
I'm standing here outside your door  
          C                                  F                                  G7  
I hate to wake you up to say goodbye  
          C                                  F  
But the dawn is breaking it's early morn  
          C                                  F  
The taxi's waitin' he's blownin' his horn  
          C                                  F                                  G7  
Already I'm so lonesome I could die

## Chorus:

          C                                  F  
So kiss me and smile for me  
          C                                  F  
Tell me that you'll wait for me  
          C                                  F                                  G7  
Hold me like you'll never let me go  
          C                                  F  
Cause I'm leavin' on a jet plane  
          C                                  F  
    Don't know when I'll be back again  
          C                                  F                                  G7  
    Oh, babe I hate to go

          C                                  F  
There's is many times I've let you down  
          C                                  F  
So many time I've played around  
          C                                  F                                  G7  
I tell you now they don't mean a thing  
          C                                  F  
Every place I go I'll think of you  
          C                                  F  
Every song I sing I'll sing for you  
          C                                  F                                  G7  
When I come back I'll bring your wedding ring

## Chorus>

          C                                  F  
Now the time come to leave you  
          C                                  F  
One more time let me kiss you  
          C                                  F                                  G7  
Then close your eyes I'll be on my way  
          C                                  F  
Dream about the days to come  
          C                                  F  
When I won't have to leave alone  
          C                                  F                                  G7  
About the times I won't have to say

## Chorus>
